

Allied Glass in Capable Hands

With vast experience in the packaging industry, Allied Glass Containers has an exceptional reputation for its quality and service levels. And, as the UK's fourth largest manufacturer of glass containers, Allied Glass has the capacity to produce more than 11 million containers per week.

As a company, Allied Glass has always been committed to a continuous policy of investment. This has allowed the integration of state-of-the-art manufacturing techniques that together with rigorous project management skills, produces a packaging partner for some of the food and beverage industries' most prestigious brands.

To complement Allied Glass Containers' operating culture, the company is an Investor in People and utilises latest generation bottle manufacture underpinned by computer aided design techniques that enable Allied Glass to produce innovative and award winning packaging ideas in volume.

Having recently received certification to the BRC/loP standard, and being accredited to both ISO 9001 and ISO 14001, Allied Glass Containers' reflects its commitment to the ethos of being 'The premium glass manufacture' and to delivering total customer satisfaction.

If you would like more information on how we can help with your packaging design and manufacturing requirements, please call 0113 2451568
